

**2010 Sunday School Report**  
***Sarah Bennett***

2010 was a year of transition for Emmanuel Sunday School. We began the year with the introduction of a 9am Sunday School. Our numbers during the winter and spring of 2010 were fairly small. We hoped that once more people were aware of what was being taught in Sunday School and in the difference between Kids' Church and Sunday School that more students would begin attending. Unfortunately, our numbers did not increase. Recruitment of teachers was also a challenge in the fall of 2010.

Over the summer, we developed an Emmanuel designed curriculum with a focus on learning directly from scripture and Bible stories. We introduced the new curriculum in the fall. We continued to have challenges with small class sizes and with recruitment of teachers. Eventually, the decision was made to merge the Sunday School and Kids' Church programs, and this new program, *Kids' University*, was introduced in January 2011.
